

THE NATIONAL MATHEMATICS AND SCIENCE COLLEGE

Destinations of Leavers

2017-2021

Summary from the last year:

- 83% of students who chose to continue their studies in the UK went to Russell Group Universities
- 39% of students who chose to continue their studies in the UK went to G5 Universities
- 22% of students who chose to continue their studies in the UK went to Oxford or Cambridge

Summary from the last 3 years:

- 92% of students who chose to continue their studies in the UK went to Russell Group Universities
- 52% of students who chose to continue their studies in the UK went to G5 Universities
- 17% of students who chose to continue their studies in the UK went to Oxford or Cambridge

THE NATIONAL MATHEMATICS AND SCIENCE COLLEGE

Destinations of
Leavers
2017-2021

Summer 2021:

University Destination	Subject
Bath University	Integrated Mechanical and Electrical Engineering
Bristol University	Accounting and management
Brunel University	Medicine
Cambridge University (St John's College)	Mathematics
Cambridge University (St Edmund's College)	Natural Science (Earth Science)
Edinburgh University	Maths and statistics
Edinburgh University	Software engineering
Edinburgh University	Biological sciences (Zoology)
Imperial College London (President Scholarship awarded)	Aeronautical Engineering
Imperial College London	Biology
King's College London	Maths with management and finance
Loughborough University	Product Design Engineering
Manchester University	Pharmacy
Oxford University (Lincoln College)	Chemistry
Oxford University (Christ Church College)	Biology
Oxford University (Merton College)	Chemistry
Penn State (USA)	Medicine
Queen Mary's University of London	Law
Queen Mary's University of London	Chemistry
Queen's College London	Biomedical sciences
Toronto University	Liberal Arts
University College London - UCL	Chemistry
University College London - UCL	Economics and Business (East European studies)
UCLA (USA)	Liberal Arts
Warwick University	Computer Science with Business Studies
York University	Mathematics

Summer 2020:

University Destination	Subject
Imperial College London	Electrical and Electronic Engineering
Imperial College London	Computing
Imperial College London	Electrical Engineering
King's College London	Chemistry
King's College London	PPE
Queen Mary's University of London	Biomedical Sciences
Queen's University Belfast	Mechanical Engineering
University College London - UCL	Mechanical Engineering
University College London - UCL	Mathematics
University College London - UCL	Natural Sciences
University College London - UCL	PPE
University of Bristol	Aerospace Engineering
University of Bristol	Virology and immunology
University of Cambridge (Girton College)	Engineering
University of Cambridge (St Catharine's College)	Natural Sciences
University of Southampton	Electrical Engineering
University of Manchester	Biomedical Sciences
University of Oxford (St Peter's College)	Electrical Engineering

Summer 2019:

University Destination	Subject
University College London - UCL	Chemistry (following Gap Year)
Imperial College London	Mathematics
Newcastle University	Economics and Management
St Georges Teaching Hospital – University of London	Medicine
University College London - UCL	Computer Science
University College London - UCL	Physics
University College London - UCL	Mathematics
University College London - UCL	Biomedical Sciences
University of Bristol	Mathematics
University of Cambridge (St Catherine's College)	Natural Sciences
University of Leeds	Mathematics
University of Leicester	Criminology
University of Liverpool	Computer Science
University of Oxford (St Hugh's College)	Physics
University of Rome	Modern Languages and Philosophy

THE NATIONAL MATHEMATICS AND SCIENCE COLLEGE

Destinations of Leavers

2017-2021

Summer 2018:

University Destination	Subject
University of Cardiff	Aerospace Engineering
Edinburgh University	Politics
Edinburgh University	Mathematics
Imperial College London	Mathematics
Imperial College London	Accountancy
Leuven University - Belgium	Neuroscience
University College London - UCL	Physics
University College London - UCL	Natural Sciences
University College London - UCL	Chemistry
